Vom Feuer Jungle Rifle

Installation:

- Download Equinox407's XM4
- Put all files into your patchday8ng file in mods/update/update.rpf/dlc_patch/patchday8ng
(This folder won't be in the game by default I believe, but it is part of the OIV in the VF semi auto pistol mod.)
- Install these textures.
- Put textures in patchday8ng. (same folder you put the models)
